After School Classes Session 3

Jan 23 - Feb 27

Rockin' Robyn's Reading & Writing JK/K

This program is an opportunity for extra reading and writing practice throughout the 2011-2012 school year. I will be implementing reading and writing programs that are interactive and fun! The Verbal Pathways Handwriting Program helps children learn and practice handwriting skills through gross motor movement, chants, and games. The Guided Reading Program gives children the chance to learn and practice beginning reading strategies through small learning communities like reading groups and partner pair activities. Lessons will be individualized for each child's abilities.
